Profile

I am a passionate Nuke Compositor with 5+ year experience in the field, spanning both commercials and film/episodic. At The Mill, I worked on high-end commercials, such as the Apple Watch Ultra and Samsung Galaxy Buds2 reveal trailers. During my time at Absolute Post, I specialised in compositing complex shots, collaborated with the CG department, and mentored junior team members on projects like "ROTG," Adidas GMR, and Lidl Big On Christmas. I am currently employed as a Nuke Compositor at 1920vfx, where I work in the film and episodic department as a core member. I hold a certification for 'Advanced Compositing for Visual Effects' from Escape Studios and earned a 2:1 degree in Film Production from the University of Gloucester.

Skills

Technical skills: CG Compositing, Keying, 3D Camera Tracking in Nuke, Paint/Prep, Intermediate Python
